

service & parts

SysTech offers extended service as a standard option for the products we supply. We want our equipment to operate correctly long after the initial start-up. In 2004, Systemtech created a service division to provide field technicians for routine maintenance, refurbishment and repair of the equipment we provide.

AIR QUALITY CONTROL

- Cartridge dust collectors
- Oil mist & smoke separators
- Baghouse dust collectors
- Electrostatic precipitators
- Wet scrubbers & Oxidizers
- Dust & fume exhaust systems
- Central vacuum systems

NOISE ABATEMENT

- Industrial fan silencers
- Rigid wall enclosures
- "Soft" wall enclosures
- Sound barriers
- Acoustical & thermal blankets
- In-plant acoustical offices

ENGINEERING SERVICES

- Complete engineered systems
- Design-build responsibility
- Preventative maintenance pkgs.
- Replacement filters & parts
- Air quality operating permits

FANS & BLOWERS

- Centrifugal airfoil, radial & BI designs
- Axial roof ventilators & wall fans
- High pressure & temperature designs
- OEM custom designs
- Aluminum, SS or CS construction
- FRP, PVC or Kynar construction
- Quick ship fans - 24 hrs.

VENTILATION COMPONENTS

- Wall louvers & dampers
- Area enclosures - rigid & flexible
- Make-up air units
- Duct-clamped or flanged in CS, SS
- FRP, PVC duct, hoods & accessories
- Flexible connectors - metal & fabric

ELECTRICAL CONTROLS

- Variable frequency drives
- Custom control panels
- Airflow/pressure control
- Pulse collector control upgrades
